---

DPZ Capital Limited, founded in Jersey in 2007 and which describes itself as the fast growing investment boutique, has appointed Gary Hill to their Investment Team.

“I am thrilled to be able to join the DPZ team. Their focus on absolute return investing and their strong emphasis on client service is completely in line with my approach to asset management. I am looking forward to contributing to the firm’s investment process and its continued growth,” he said.

He started his investment career with AIB Portfolio Managers in Jersey in 1994, having graduated with a BA (Hons) from Nottingham Trent University Business School. He went on to manage discretionary portfolios at Hambros Bank and joined Collins Stewart in 2002 to specialise in multi-asset portfolio investing.

During this period, he became an Investment Director of the Jersey office and a member of the fund selection committee, spending time covering a number of global sectors. He managed a wide case-load of private and corporate client portfolios, including a large number of South African clients. Gary was also the lead manager of the United Services Trustee Capital Fund, a fund dedicated to military charities and regiments. He is a Chartered MSCI and holder of the Investment Management Certificate.

DPZ Capital is an independent investment firm that provides asset management and advisory investment services to wealthy individuals, families, charities and institutions. It was founded in 2007 and now has 16 employees and over £300 million under management.
